

## EUROPEAN CHARCOAL GRILL E1

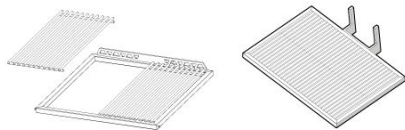

### THE UNIQUE CHARM OF EUROPEAN CHARCOAL GRILL

1. Heavy-duty design, material thickness reinforced for prolonged high-temperature use, ensuring durability.
2. Adjustable charcoal grill and height-adjustable grill rack provide unlimited convenience for chefs to adjust heat and achieve precise cooking for various dishes.
3. Equipped with a wake-up grill, ensuring high-standard cooking of large food pieces.
4. Specially designed heat dissipation and insulation air ducts ensure excellent thermal insulation and safe operation of the equipment.
5. Entire machine made of high-standard 304 stainless steel, ensuring all parts in contact with food are safe.
6. Bottom with storage cabinet for fruitwood and fruitwood charcoal, convenient for adding during equipment use.
7. High-strength, wear-resistant stainless steel wire and wheel components provide smooth operation.

#### SPECIFICATION

Dimensions (mm)	910*850*1585mm
Material	304 stainless steel
Ignition Time	34min
Daily Charcoal Consumption	12 - 14KG
Hourly Output	~117KG
Temperature	250 - 350 °C
Tray Capacity (per Grill)	1xGN1/1
Thermal Power	8.7kw
Flue Gas Mass Flow Rate	17.34g/s
Net Weight	230KG

#### INCLUDED ACCESSORIES

Grill Rack

Meat Holding Rack
