

# SKOPE-connectEYE™

## Take the Hassle out of HACCP

SKOPE-connect™, the most powerful commercial refrigeration monitoring app available now can be used in any fridge, freezer or cool room from any manufacturer.

All you have to do is place a SKOPE-connectEYE™ in your appliance or cool room, connect to the app and start monitoring temperatures.

- Take the hassle out of HACCP compliance
- Be warned when your product is going outside approved temperatures
- Measure door openings - both for merchandising/product testing and impact on refrigeration performance
- Download 2 months of temperature data in spreadsheet form
